## GENEROSITY HEALS

---

Sharing enables our world to thrive. No one has everything it takes to prosper. Each has a piece, and the whole flourishes through the willingness of one to share with many. When you share with another, both of you have more.

Thank you for sharing. Your thoughtful generosity continues to heal the heart, body, and mind of our patients every single day.

During this time of Thanksgiving,  
we are so thankful for you.
